BLACK LETTERS. Those names appearing in **black letters** in this directory represent the energy and push of the city, and it is a pleasure for the publishers of this directory to have the opportunity to make the public acquainted with them through our columns. Those in black letters are the people who accomplish the wonders in business and make the city what it is. They recognize and support all the public necessities and things needful to improve and serve a city of Colorado Springs' magnitude. They are not the drones and sponges, who never support anything, and thereby gain by other's hard work and money. When you patronize those in black letters you patronize men and firms who will patronize you in the same broad manner you patronize them.
