INTRODUCTION

Comprising what is known as the Pike's Peak Region, the three cities, Colorado Springs, Colorado City and Manitou, with their suburbs form practically one community, although under separate municipal governments. For this community the directory contains 20,166 individual names, using the multiple $2\frac{1}{2}$ to allow for names of women and children not represented in its columns, the population is estimated at 50,415.

The community at the foot of Pike's Peak is unique in many respects. Primarily it is noted as an ideal location for residence and its chief assets may be said to be its magnificent scenery and its unsurpassed climate. Nature has been lavish in bestowing upon this region her choicest possessions. It can truthfully be said that no other city on the American continent can boast of such a variety of scenery so easily accessible as that which lies at the doors of Colorado Springs, Colorado City and Manitou. Guarded by the majestic snow clad summit of Pike's Peak, some of the more noted scenic attractions of this vicinity are: the Garden of the Gods, Glen Eyrie, Mushroom Park, South Cheyenne Canon and the Seven Falls, North Cheyenne Canon and the High Drive, Williams Canon and the Cave of the Winds, Crystal Park, Ute Pass, Cliff Dwellers' Canon, Mount Manitou, Stratton Park, Palmer Park, Cripple Creek, the world's greatest gold camp, reached by the Cripple Creek Short Line, and a score of other places of scenic beauty.

Colorado Springs and its sister cities have long held an international reputation as a health and pleasure resort. The fine weather enjoyed by this region is very nearly a continuous blessing. Official weather reports show that for the last 25 years there has been an average of 180 absolutely clear days and 129 partly cloudy days, making a total of 309 days of sunshine in a year. The curative quality of the air is attested by the many permanent recoveries from pulmonary troubles. Colorado Springs altitude is 6,035 feet and that of Manitou 6,335 feet.

Colorado Springs is a modern city and takes pride in its advantage as an ideal residence city. The city owns its own mountain water system, which supplies absolutely pure water to its residents. The city park system, provided largely through the generosity of General William Jackson Palmer, founder of the city, embraces more than 3,000 acres and is unexcelled for variety and size. Colorado Springs has long taken rank as an educational center not only as regard public schools, but also Colorado College. Near the city are located the Union Printers' Home and the National Sanatorium of the Modern Woodmen of America.

In a business and industrial way the three cities show a substantial and permanent prosperity. Three large gold reduction works, numerous brick yards, three railroad yards and many other industries provide a large monthly payroll. Bank deposits are in excess of \$12,000,000. Extensive coal deposits are found north of the city.

The growth of this community during the last year, as shown by directory estimate indicates a healthy condition and proves the prosperity of its inhabitants.
