15 GAZETTE BUILDING, COLORADO SPRINGS, COLO:

(Copyright, 1919, by The R. L. Polk Directory Co.)

INTRODUCTION

COLORADO SPRINGS is a modern city which takes pride in its exceptional advantages as a residential center. It is an ideal city of homes and has a population of about 50,000. The city owns a mountain water system valued at more than \$3,500,000 and has several miles of sewerage involving an enormous cost. A modern electric Railroad, an up-to-date Light and Telephone system are also maintained. The city's park system embraces more than two thousand acres and is unexcelled in variety and size. Colorado Springs has long taken rank as an educational center. The Public and Private Schools maintain a very high standard. Colorado College, the oldest institute for higher learning in the state is located here as well as the Colorado Institute for the Deaf and Blind. The Union Printers Home, the Modern Woodmen of America and other sanitariums are located on the outskirts of the city.

Colorado Springs has an altitude of 6035 feet and that of Manitou 6335 feet. This region has long held an international reputation of being one of the greatest health and pleasure resorts of the world. The atmosphere is absolutely free from germ life and its curative qualities are tested by the permanent recoveries of lung troubles. It is known as the "City of Sunshine" and the weather records for the past twenty-five years show an average of one hundred eighty clear days and one hundred twenty-eight partly cloudy days making a total of three hundred eight days of sunshine.

In presenting this, the 16th revised edition of this book to our subscribers, and to the general public, we do so with the assurance that the information is as complete as is possible to get up a work of this kind. We might add that the information contained in the Colorado Springs Directory is by far the most complete of any book of its kind on account of it containing so many additional features that are not included in the average city Directory. We regret, however, to call attention to the fact that the book has not been supported in an advertising way as liberally as it deserves and unless we meet with better support from the business houses we will have to eliminate some features from the next edition of the book.

We wish to call attention to the condensed form of this book compared to other editions published. We have used abbreviations for given names and other words representing the occupation and business of individuals also the ditto mark in place of spelling out each name. The book has several hundred more names than the 1918 edition, but has fewer number of pages which is due to the different style of type and the new style of information used.

Names Appearing in Black Letters

In this Directory represent the **ENERGY AND PUSH** of the city, and it is a pleasure for the publishers of the Directory to have the opportunity to make the public acquainted with them through our pages. Those in **BLACK LETTERS** are the people who **ACCOMPLISH THE WONDERS** in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city. They are **NOT DRONES AND SPONGERS** who never support anything, and thereby gain by others' hard work and money. When you **PATRONIZE THOSE IN BLACK LETTERS** you patronize men and firms who will patronize you in the same broad manner in which you patronize them.

Names Appearing in Black Letters

In this Directory represent the **ENERGY AND PUSH** of the city, and it is a pleasure for the publishers of the Directory to have the opportunity to make the public acquainted with them through our pages. Those in **BLACK LETTERS** are the people who **ACCOMPLISH THE WONDERS** in business here and make the city what it is. They recognize and support all public necessities and things needful to improve and serve a city. They are **NOT DRONES AND SPONGERS** who never support anything, and thereby gain by others' hard work and money. When you **PATRONIZE THOSE IN BLACK LETTERS** you patronize men and firms who will patronize you in the same broad manner in which you patronize them.
