The World-Famous Scenic Resort Hotel

In The Pikes Peak Region

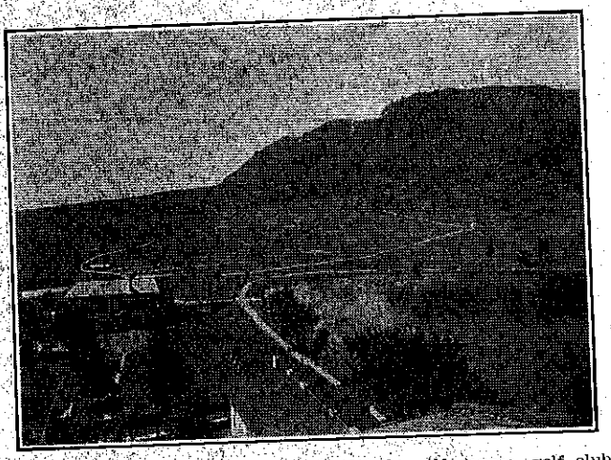

Of interest to all visitors is the mirrored image of the Broadmoor Hotel in the Lake of Clearness beside it. The Lake is used as a bathing beach during the summer and for skating in the winter.

Unsurpassed by the beauty of its surroundings, the Broadmoor has been likened to a jewel in a setting of nature's own contriving. With a background of pine-covered hills, it lies at the very junction of mountain and plain—the delight of artists and outdoor lovers alike.

The hotel itself is a place of rare charm. Open the year around it offers everything in the way of entertainment for its guests, from a cosmopolitan atmosphere to a brilliant social life.

THE BROADMOOR

Including such sports, as polo, golf, tennis, riding, motoring, hiking, picnicking, fishing, gymkhanas and swimming.

The all year around famous 18-hole golf course, golf club and lake. Scene from the Broadmoor roof garden.

INTRODUCTION

R. L. POLK DIRECTORY CO., publishers of the Colorado Springs and Manitou City Directory, as well as more than 700 other city, county, state and national Directories, present to its subscribers and to the general public this, the 1929 edition of the Colorado Springs and Manitou City Directory.

Confidence in the growth of Colorado Springs, in its wealth, industry and population as well as in the advancement of its municipal and social activities will be created as sections of this Directory are consulted, for truly the Directory is a mirror reflecting Colorado Springs to the world.

The enviable place occupied by R. L. Polk & Co.'s Directories in offices, stores, libraries and homes thruout our country, causes the publishers to forecast the belief that the Colorado Springs Directory will fulfill its mission as a source of authentic information of any and every kind pertaining to our city. With an unrivaled organization having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labor will meet with the approval of every resident of the city.

Population

The estimated population of Colorado Springs and suburbs is 46,000, based on the number of individual names in the alphabetical section of the Directory with due allowance for children, whose names are not included. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the Directory.

Several Major Departments

The several essential departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 11 to 24, presents a variety of information, such as city government, county officials, courts, State and Federal officials, a statistical summary, historical sketch, industrial, retail and wholesale surveys, etc.

THE BUYERS' GUIDE, pages 25 to 65, printed on tinted paper, contains the advertisements of the leading manufacturing, business and professional interests of Colorado Springs and Manitou. These pages will be found particularly interesting and instructive to the substantial element of these cities. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and as such, merits a survey by all buyers keen to prime themselves on sources of supply. The city's activities, in many interesting phases are interestingly pictured to reveal what it has in its show windows. In an ambitious and progressive community like Colorado Springs the need of this kind of information readily at hand is very great and frequently pressing. General appreciation of this fact is evidenced by the liberal patronage the City Directory enjoys in the many fields it covers.

THE ALPHABETICAL LIST OF NAMES of residents, business firms, corporations is included in pages 69 to 474.

THE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS covers pages 477 to 632. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 633 to 720. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory Section than through any other medium."

Community Publicity

The Directory reflects the achievements and ambitions of the Community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To give emphasis to their desire to broadcast this information over the country, the publishers have placed copies of this issue of the Directory in Directory Libraries, which are maintained in all the larger cities of the country, where they are readily available for free public reference and serve as perpetual advertisements of Colorado Springs and Manitou, for business men the country over realize that the City Directory represents the community as it really is.

The publishers appreciatively acknowledge the patronage of those progressive business and professional men who have expressed their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK DIRECTORY CO.,
Publishers.

Fire department employs 42 men with following equipment: 2 autos, 3 engines, 4 hose and chemical wagons, 1 hook and ladder truck, and 5 station houses. Police department has 35 men with 1 station and 7 pieces of motor equipment.

General View of COLORADO SPRINGS

For many years one of the most widely known scenic resorts in the United States, Colorado Springs has recently achieved the added distinction of being proclaimed one of the country's greatest health resorts. Still more recently it has acquired the reputation of being one of the state's most thriving industrial centers. That the conflicting features of a health and scenic resort and an industrial center unite without friction is due to the fact that Colorado Springs is ideally situated and to the additional fact that the municipality has safeguarded its original characteristics against unwholesome factors.

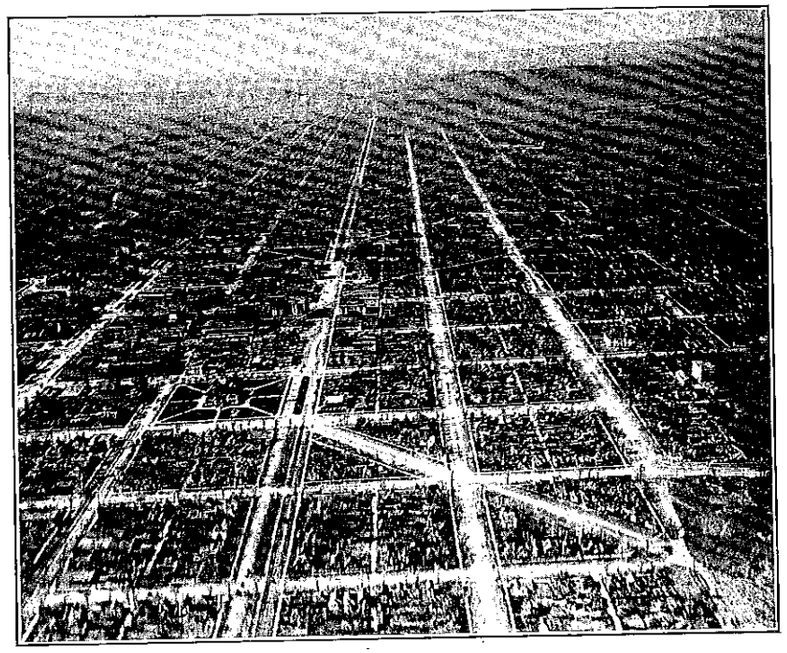

Situated at the eastern foot of the Rocky Mountains, the city has for its background some of the most beautiful scenery in the world, and in the foreground an agricultural area that is rapidly becoming one of the foremost farming sections in the state. The city was founded 56 years ago, and its growth, though never spectacular, has been steady. From a residential adjunct of one of the leading gold mining sections of the world, it has gradually taken on the characteristics of a thoroughly up-to-date metropolis, until today it offers, in addition to its natural attractions, virtually all the advantages of the largest cities.

Its health-giving qualities consist of the pure, dry atmosphere deriving from its altitude of 6,036 feet; its mountain water, said by chemists to be the purest in the world, and its sunshine, which prevails to

such an extent that cloudy days are extremely rare. All the principal streets of Colorado Springs are paved, but such of the side streets as have not yet been paved are sprinkled regularly, and as there is an abundance of trees and lawns the atmosphere is always free from dust—factors which contribute materially to the restoration or perpetuation of health.

These are some of the qualities that are making Colorado Springs the mecca of thousands of healthseekers and the objective each year of hundreds of thousands of tourists from all parts of the world.

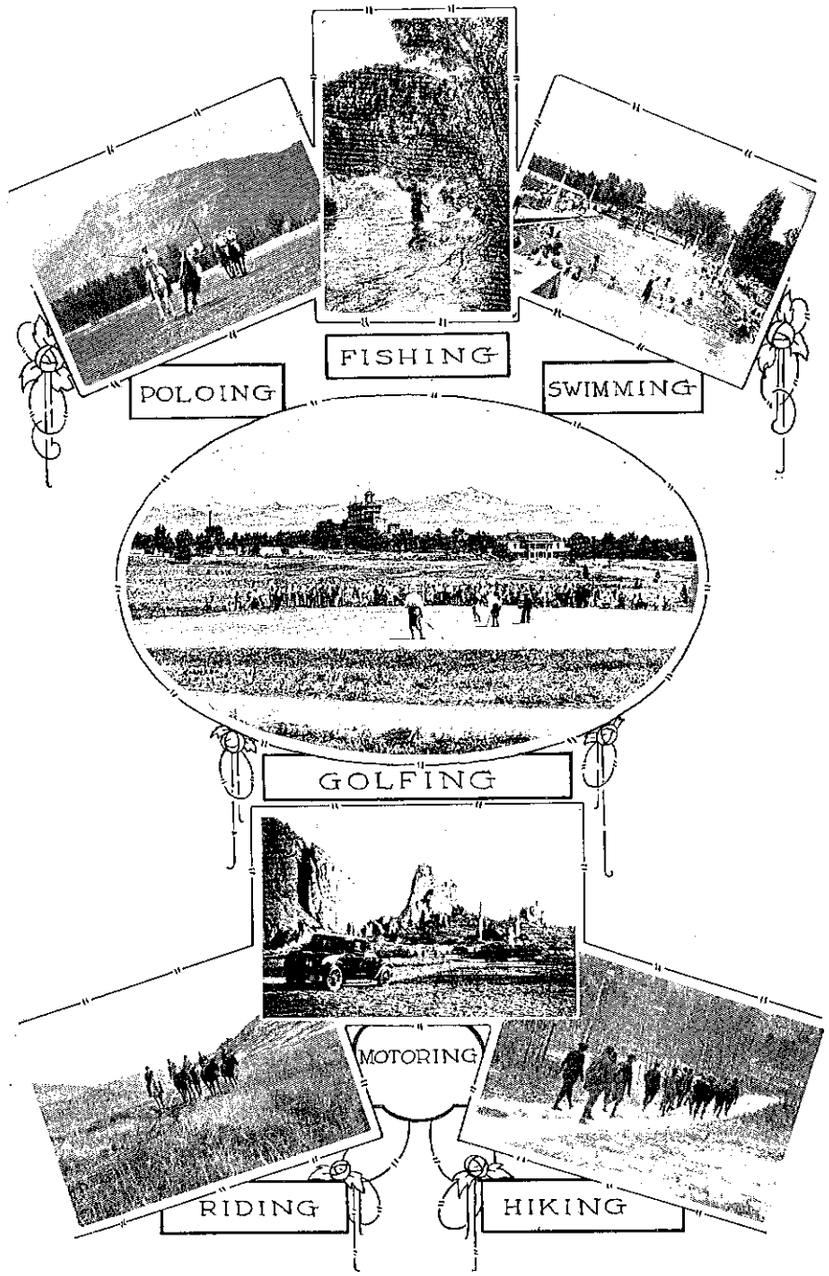

An Aeroplane View of Colorado Springs

The city may be reached easily by rail or automobile, or even by airplane, as it has an excellent municipal airport. It is served by five railroads, two transcontinental highways and is situated between two other leading highways, the Lincoln Highway and the Santa Fe Trail.

SCENERY

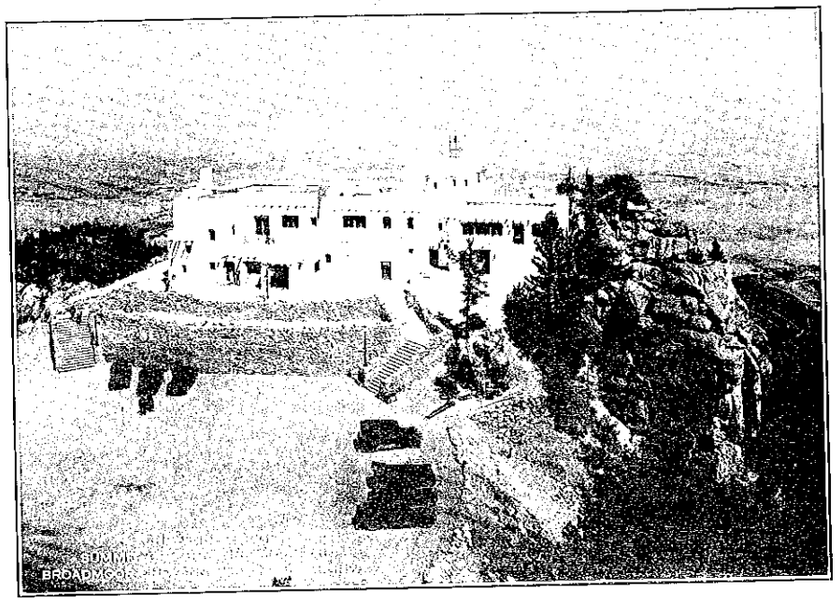

Nearly a century and a quarter have elapsed since Lieut. Zebulon M. Pike first glimpsed the mighty mountain which bears his name. He made heroic attempts to scale it, but failed; after which he wrote in his diary that "no human being could have ascended to its pinnacle." Today, however, Pikes Peak is ascended by thousands of persons annually—persons from all over the world. Moreover, it is ascended with ease, some going up in motor cars over the Pikes Peak Automobile Highway, others mounting to the summit in the comfortable coaches of the Cog

In the Pikes Peak Region
The All-Year Playground of America

Railroad, going up on burros or afoot over the winding trails. Pikes Peak reaches a height of 14,109 feet above the level of the sea.

An equally inspiring trip is that over the new scenic Broadmoor-Cheyenne Mountain Highway, the construction of which is regarded as one of the great engineering feats of the time. Other leading attractions are the Seven Falls at the head of South Cheyenne Canon; the Cave of the Winds, a geological marvel of rock formations with numerous stalagmites and stalactites; the Garden of the Gods, a tumult of spectacular rock formations, which is part of the city's park system; the Mount Manitou Scenic Incline, over which cable-cars are drawn from the foot of the mountain to the summit, 10,000 feet above sea level; the

Elevation 10,000 feet. Colorado Springs in the Distance

Corley Mountain Highway, which winds thru the heart of the mountains from Colorado Springs to Cripple Creek, 45 miles away; the Cliff Dwellings near Manitou, five miles west of Colorado Springs, and North and South Cheyenne Canons, between whose massive walls many thousands of picnickers enjoy themselves the year around.

A CAMPERS' PARADISE

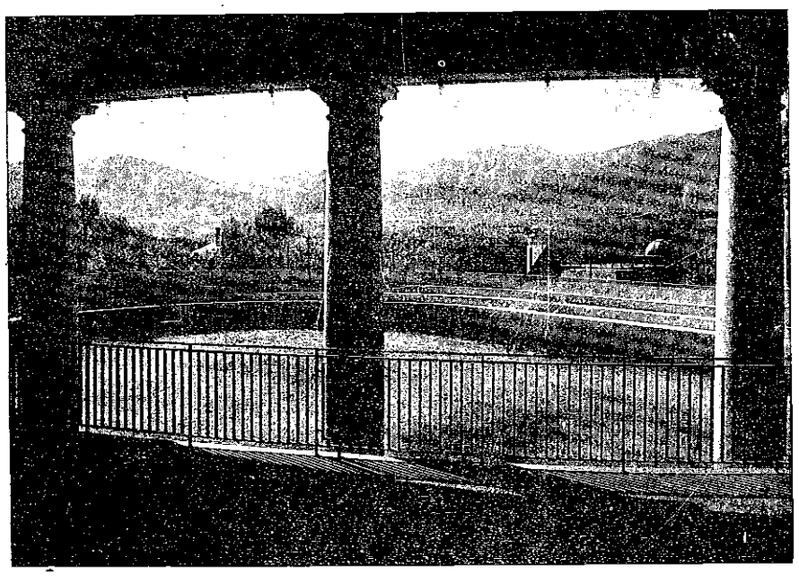

The Pikes Peak Region offers camping inducements that will appeal to every kind of camper, regardless of tastes. In secluded mountain glens, on the banks of streams, in heavily wooded canons, are camping sites of the most enticing nature. Cottage cities having hundreds of small cabins, and any desired modern convenience, are here for the wandering motorist out for a jaunt.

MOTORING

Motorists who come to Colorado Springs will learn the true joys to be derived from automobile driving, for the heart of the Rockies is less than 30 minutes' drive from the city. Hard-surface or well-kept gravel highways lead to every section of the mountains. Beautiful canons with murmuring streams in which trout abound may be reached by means of a short drive that contains as many pleasures as the destination for which the driver is bound. The region's picnic spots, reached by shady, winding roads of extraordinary beauty, are accessible either to the hiker or the motorist. The roads are open every day in the year, and only rarely does the motorist find it necessary to use chains.

SPORTS

Polo, tennis, golf—these may be indulged in thruout the year in the Pikes Peak region, where there is no such thing as a closed season. Sportsmen have learned this fact, and each year Colorado Springs is becoming more popular with them. Leading sportsmen from thruout the country, and even from abroad, find the climate and facilities of the region unexcelled. Yearly polo tournaments are stimulating the breeding of fine horses, one of the finest polo fields in the country being located in Broadmoor, a suburb of Colorado Springs. There are two excellent golf courses, public and private tennis courts and swimming pools. Other sports include hiking contests, annual swimming meets and horseracing.

Outdoor Gymnasium—Colorado College

EDUCATIONAL FACILITIES

The public school system of Colorado Springs has been described by leading educators of the country as one of the most advanced that the

nation possesses. It has adopted the platoon system for the primary grades, and its grade schools are among the finest examples of school architecture in American cities. It has three junior high schools and a senior high school with an accredited standing recognized by all institutions of higher learning in the land. Colorado College, one of the leading liberal arts, coeducational schools of the West, is located here. Summer courses are offered at this college and at the public schools. There is in the city a good business college, which specializes in the branches essential to a business career. Moreover, Colorado Springs is the site of the Colorado School for Deaf and Blind, which ranks among the foremost of its kind in the United States.

HEALTH INSTITUTIONS

The hospitals and sanatoria of Colorado Springs are acknowledged throughout the country to be among the best. These include the National Methodist Episcopal sanatorium, recently completed at a cost of $2,000,000; the Modern Woodmen of America Sanatorium, situated a short distance northwest of the city and just north of the Garden of the Gods;

WINFIELD SCOTT STRATTON
One of the Pioneer Builders of Colorado Springs

the International Typographical Union Printers home; Beth-El Hospital St. Francis Hospital; Glockner Sanatorium, and Cragmor Sanatorium, the last being a few miles northeast of the city.

AVIATION CENTER

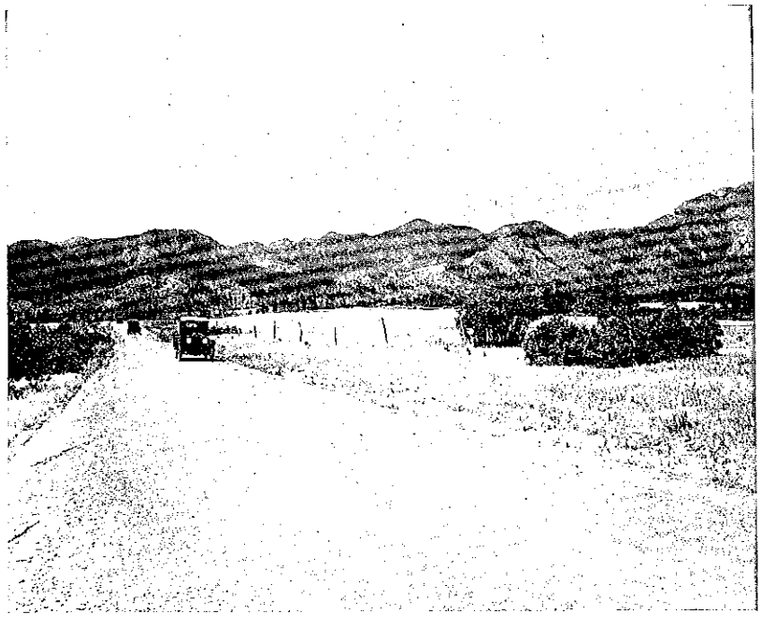

Colorado Springs not only has a first-class municipal airport, but is the home of the Alexander Industries, Inc., manufacturers of the famous Eaglerock planes, which is situated on the northern edge of the city. The airport consists of 627 acres, and is fully equipped with electrical lighting. The Pikes Peak Flying Club is the largest in the West.

RAILROADS AND HIGHWAYS

The city is served by the Santa Fe, Rock Island, Denver and Rio Grande Western, Colorado and Southern and Midland Terminal railroads, as well as the Pikes Peak Ocean-to-Ocean and the Colorado-to-Gulf highways. The state highway connecting Pueblo and Denver also passes thru it.

AGRICULTURE

During recent years the plains country, lying to the east of Colorado Springs, and the many large fertile valleys in the mountains have been developed to a point where they are now among the most important adjuncts of the city. In the mountains the growing of potatoes and lettuce

Farm Scene Near Colorado Springs on the Pikes Peak Ocean-to-Ocean Highway

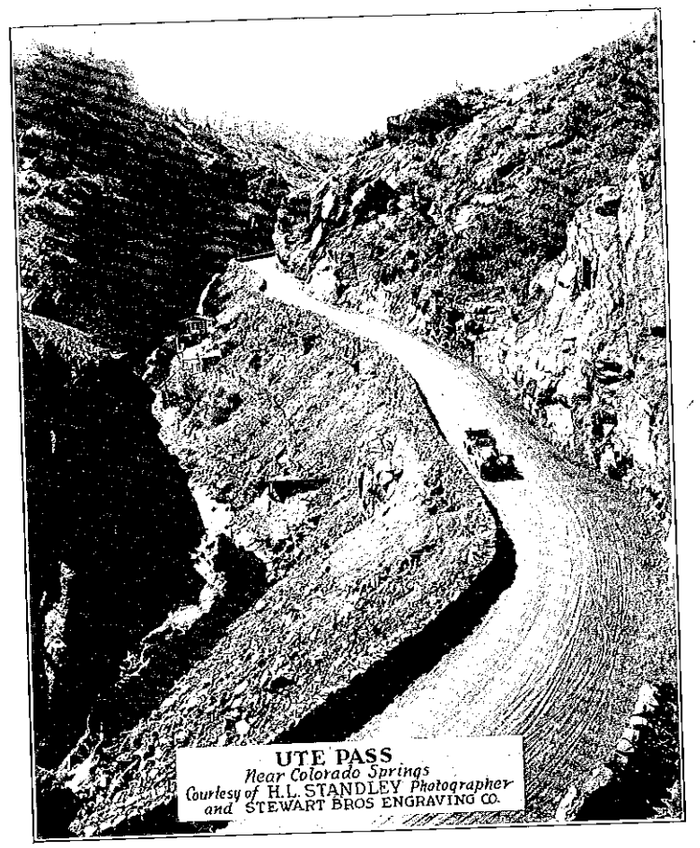

has become an industry that has attracted nation-wide attention. In the plains sections, beans are one of the principal crops, altho corn, wheat, rye, barley, alfalfa, and blue stem hay are grown in abundance.

The farming section on the plains and the agricultural areas in the mountains are devoted to dry-farming, with the exception of the Fountain valley district southeast of the city, where extensive irrigation is done, and a large amount of fruit grown, consisting largely of apples and cherries. Dairying and the raising of hogs constitute important at-

tributes of the agricultural industry of the surrounding territory. A county Agricultural Agent and a Home Demonstration Agent are constantly in touch with the farmers of the district, assisting them to practice the latest scientific methods both on the farm and in the home.

CHAMBER OF COMMERCE

The city has an excellent Chamber of Commerce, the institution being in the hands of thoroly efficient persons and being adequately financed

to meet the requiremets of the most up-to-date organization of its kind. The various committees appointed to act in conjunction with the Chamber of Commerce are composed of the leading business and professional men of the community. Industrial activity has received much stimulation thru the efforts of the organization, which is continually striving for the upbuilding of the city on a solid foundation. Correspondence with the Chamber of Commerce is invited.

ADVERTISING AGENCIES

Twenty to thirty firms, the year around, entrust to us the administration and supervision of their advertising appropriations.

We buy and use media only as it may fit the needs of the firms for whom we work.

We have "recognition" as an agency by newspapers, farm publications, magazines, trade papers, outdoor media, etc.

We offer as useful media the space in and on the local street cars, in theatre programs and in the Guide Book "How" in Season.

HOSPITALS

BETH-EL GENERAL HOSPITAL

1400 E. Boulder

Phone M. 2830

Offers to its patrons every advantage of a Standardized Hospital and takes pleasure in recommending its Maternity, Surgical, Clinical and X-Ray Laboratory departments.

Enjoys a reputation built on ability and efficiency.

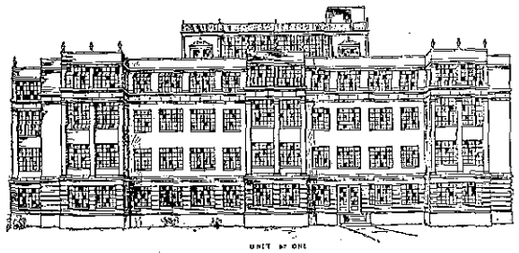

Wards, semi-private and private.

Rooms at Moderate Rates.

Training School for Nurses

Also

National Methodist Sanatorium For Tuberculosis

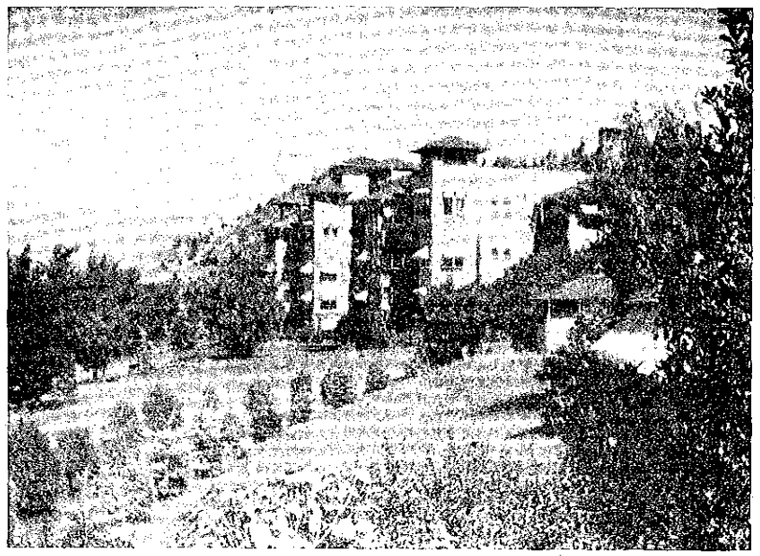

Offers to patients a strictly modern and fire-proof sanatorium. Every private room has running hot and cold water and faces south. Two-room suites with sleeping porch, sitting room and private bath. Enclosed roof garden.

For further information regarding either of these institutions, address

GUY M. HANNER, Superintendent

HOSPITALS

Interesting Facts About
The Cragmor Sanatorium

The Cragmor Sanatorium is a nationally known institution specializing in tuberculosis. It maintains commodious quarters for its patients and their guests, a village of private homes, publishes a magazine, has its own library, shop, movie and greenhouse, all of which is so helpful in maintaining the proper morale during the cure regime.

The Cragmor Sanatorium is located two and one-half miles from Colorado Springs on the Colorado Springs-Denver highway. It is reached by automobile, drivers turning to the right over the railroad tracks just beyond the Alexander plant.

The Cragmor Sanatorium is open to visitors throughout the year from ten to twelve in the mornings and from four to five in the afternoons.

The Cragmor Sanatorium receives all forms of tuberculosis. Correspondence should be directed to the Physician-in-Chief.

The Cragmor Sanatorium rates are from $25.00 to $60.00. Prices include room and board, tray service, general nursing and medical attention.

Patronize Directory Advertisers

PROPERTY OF
PIKES PEAK LIBRARY DISTRICT
P.O. BOX 1570
COLORADO SPRINGS, CO 80901

It Pays To Be Prominently Displayed

To let people know WHO you are, WHERE you are and WHAT you have to sell. The City Directory keeps your name before the public 365 days in the year, and it cannot be prominently displayed in any book so CONSTANTLY used as the City Directory.

"The DIRECTORY IS THE COMMON INTERMEDIARY BETWEEN BUYER AND SELLER"

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitmate way to promote that function.

DINE AT THE COSMOPOLITAN

Dinner Dances
in
Arabian Room
Every Saturday
8 P. M.-1 A. M.

Permanent Guests

The Cosmopolitan is an ideal place to live. Light, airy bedrooms with circulating iced water in every room and showers in most bathrooms.

When you go out for dinner, you naturally look forward to something delicious, new and different—a change from every-day meals. You can always find it at The Cosmopolitan. Dinners are served a la carte, or table d'hote, $2.00 per cover. Real first-class Parisian cuisine—novelties which you find in Paris.
