INTRODUCTION

R. L. POLK & CO., publishers of City Directories in the Rocky Mountain Region, present to subscribers and the general public, this, the 1936 edition of the Colorado Springs City Directory, which also includes Manitou Springs.

Confidence in the growth of Colorado Springs' industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Colorado Springs to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Colorado Springs Directory will fulfill its mission as a source of authentic information pertaining to the community.

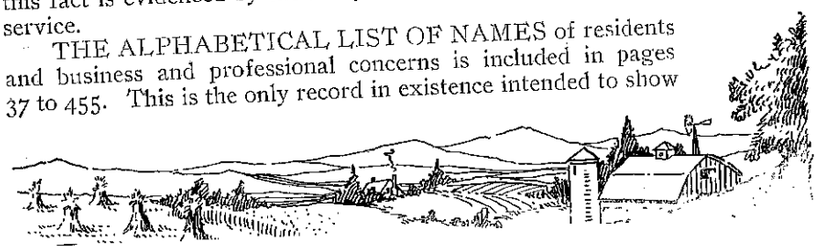
Five Major Departments

The five major departments are arranged in the following order:

THE MISCELLANEOUS DEPARTMENT, pages 5 to 20, presents lists of city, county, state and federal officials; post office; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE BUYERS' GUIDE, pages 21 to 36, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Colorado Springs and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Colorado Springs, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 37 to 455. This is the only record in existence intended to show



the name, marital status, occupation and address of each adult resident of Colorado Springs and Manitou Springs, and the name, official personnel, nature and address of each firm and corporation in the community.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 457 to 620. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street.

THE COLORADO SPRINGS RURAL ROUTES extend from pages 621 to 627.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 629 to 696. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

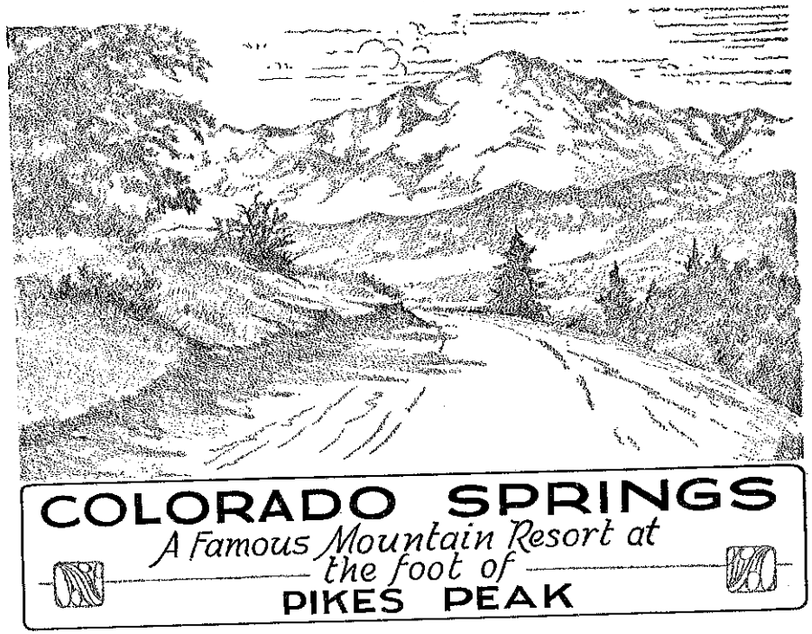
The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a resort, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Colorado Springs and Manitou Springs.

The Colorado Springs Directory Library

Through the courtesy of the publishers of the Colorado Springs City Directory, a Directory Library is maintained in the offices of the Colorado Springs Chamber of Commerce, for free reference by the general public. This is one of more than 400 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.
Publishers.



STATISTICAL REVIEW

Slogan—"City of Sunshine."

Form of Government—City Manager and Council.

Population—Total, 33,237; males, 15,358; females, 17,879; total colored, 965 (1930 U. S. Census report for city proper). American-born, 86%. 1930 U. S. Census report for Colorado Springs, 33,237. Local estimate for Colorado Springs at present, 36,000.

Area—8.97 square miles.

Altitude—6,037 feet.

Climate—Mean annual temperature, 47 degrees F.; average annual rainfall, 13.5 inches.

Hospitals—7, with total of 928 beds.

Education— Seat of Colorado College and Colorado Springs Fine Arts Center, 16 public schools, including 1 senior high and 3 junior highs, 2 parochial schools. Number of pupils in public school, 7,311; in parochial, 589. Number of teachers in public schools, 232; in parochial, 19. Value of public school property, $2,356,183; college property, $1,194,000.

Public Libraries—4, with total of 151,746 volumes.

City Statistics—Total street mileage, 150, with 46 miles paved and oiled. Miles of gas mains, 220; sewers, 106.692; bus lines, 30.67. Number of water meters, 910; (flat-rate consumers, 9,810); light meters, 14,545; gas meters, 5,887. Storage capacity of water works (municipal), 3,600,000,000 gallons; miles of mains, 181.46; value of plant, $5,722,000. Fire department has 42 men, with 5 stations and 10 pieces of motor equipment. Value of fire department property, $125,000. Police department has 34 men, with 1 station and 6 pieces of motor equipment.

General View of COLORADO SPRINGS

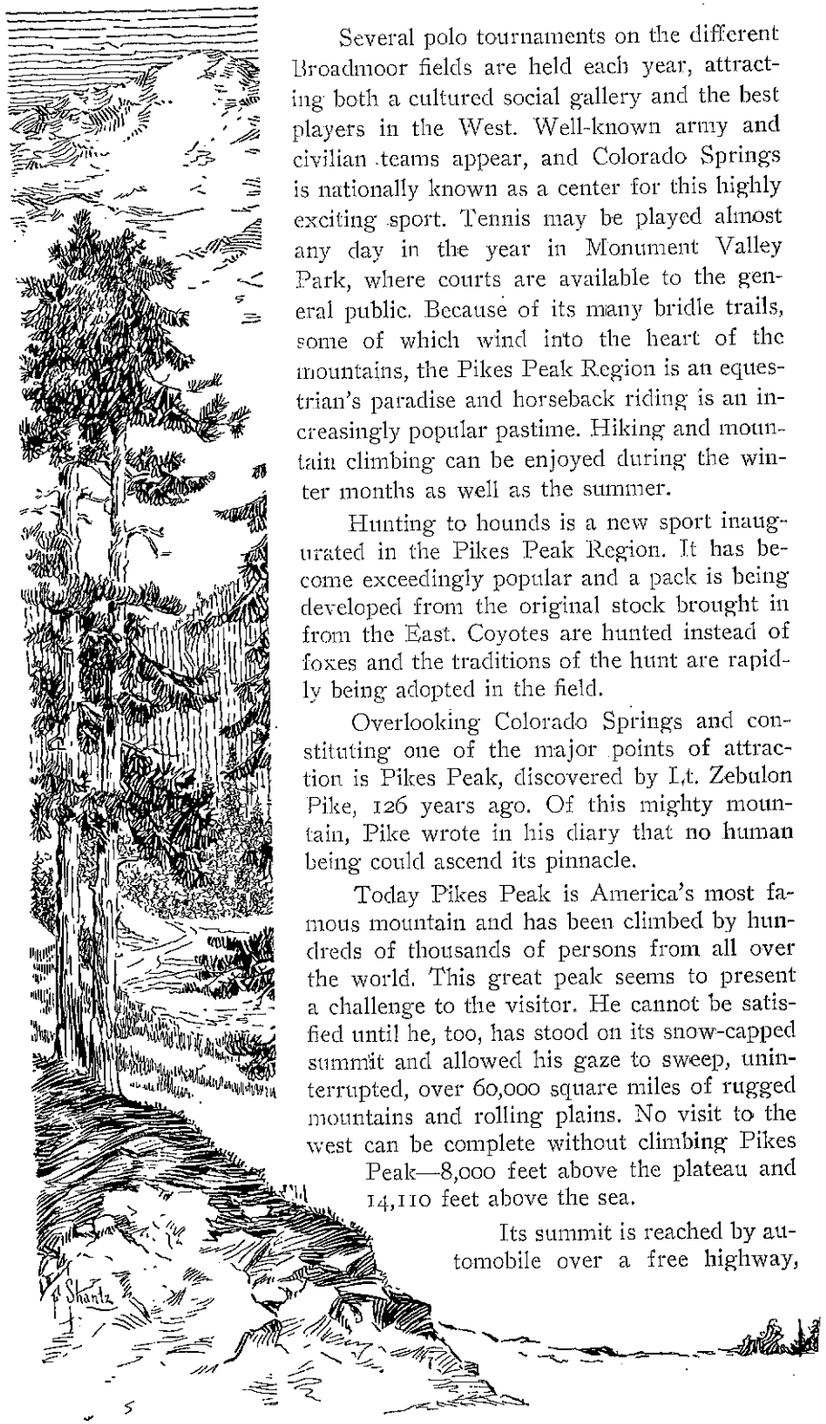
Situated at the eastern foot of the Rocky Mountains, Colorado Springs has for its background some of the most beautiful scenery in the world, while to the east an agricultural area stretches out across the plains. The city was founded in 1871 and its growth, though never spectacular, has been steady. It has gradually taken on the characteristics of a thoroughly up-to-date metropolis until today it offers, in addition to its natural attractions virtually all the advantages of the largest cities. It is a city of 45,000 inhabitants, a thriving business center, and a health resort of an international reputation. With Manitou, situated six miles to the westward, Colorado Springs is host every year to many thousands of visitors. Because of this cosmopolitan atmosphere imparted to the city by its thousands of visitors who come from all parts of the world, Colorado Springs is much more metropolitan in aspect than is customary in a city of its size. The shops offer a range and quality of wares such as one does not expect to find save in the large cities. The hotels, especially the larger ones, such as the Broadmoor and the Antlers, rank with the most luxurious in the country.

The city has wide streets and broad avenues, most of them lined with trees and flowering shrubbery in the residential sections. It has an excellent park system. Homes are of pleasing architecture, largely of frame construction and inclining toward bungalow effects, surrounded by shaded lawns.

Every effort is constantly being made to develop and maintain an educational system of the highest order. A child may receive his entire education, from kindergarten thru college, without leaving the city. There are 1 senior high school, 3 junior high schools, 16 grade schools, 2 parochial, as well as business training schools.

Colorado College, a liberal arts institution of high rank, also is situated in Colorado Springs. It is the oldest institution of higher learning in the state and is on the Harvard University exchange list. The student body is restricted to between 600 and 700 members in connection with the regular courses. It will conduct a summer school this year. A new building has just been completed, the Colorado Springs Fine Arts Center, which offers instruction in all kinds of fine arts, and contains exhibits of art collections.

Outdoor sports thrive in the Pikes Peak Region. The clear air and bright sunshine are admirably suited to golfing, which may be indulged in on the Patty Jewett Memorial Field, a splendid 18-hole turf course adjoining the residence section on the northeast, or on the Broadmoor course, situated at the foot of Cheyenne Mountain. The latter course has three times been the scene of the Trans-Mississippi Tournament and in 1935 the Western Amateur golf tournament was played on that course. Fishing is among the major outdoor sports in the mountains west of Colorado Springs having many miles of trout streams, most of which are restocked yearly.



Several polo tournaments on the different Broadmoor fields are held each year, attracting both a cultured social gallery and the best players in the West. Well-known army and civilian teams appear, and Colorado Springs is nationally known as a center for this highly exciting sport. Tennis may be played almost any day in the year in Monument Valley Park, where courts are available to the general public. Because of its many bridle trails, some of which wind into the heart of the mountains, the Pikes Peak Region is an equestrian's paradise and horseback riding is an increasingly popular pastime. Hiking and mountain climbing can be enjoyed during the winter months as well as the summer.

Hunting to hounds is a new sport inaugurated in the Pikes Peak Region. It has become exceedingly popular and a pack is being developed from the original stock brought in from the East. Coyotes are hunted instead of foxes and the traditions of the hunt are rapidly being adopted in the field.

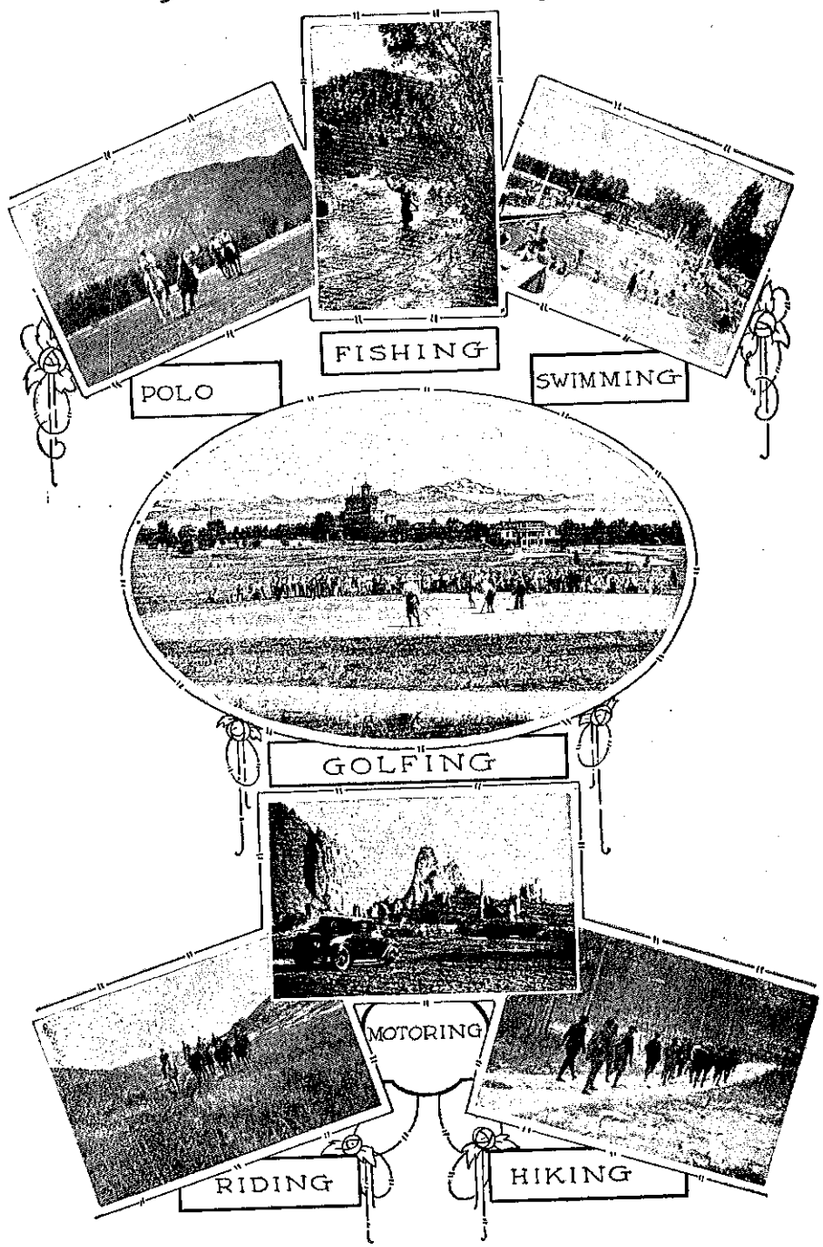
Overlooking Colorado Springs and constituting one of the major points of attraction is Pikes Peak, discovered by Lt. Zebulon Pike, 126 years ago. Of this mighty mountain, Pike wrote in his diary that no human being could ascend its pinnacle.

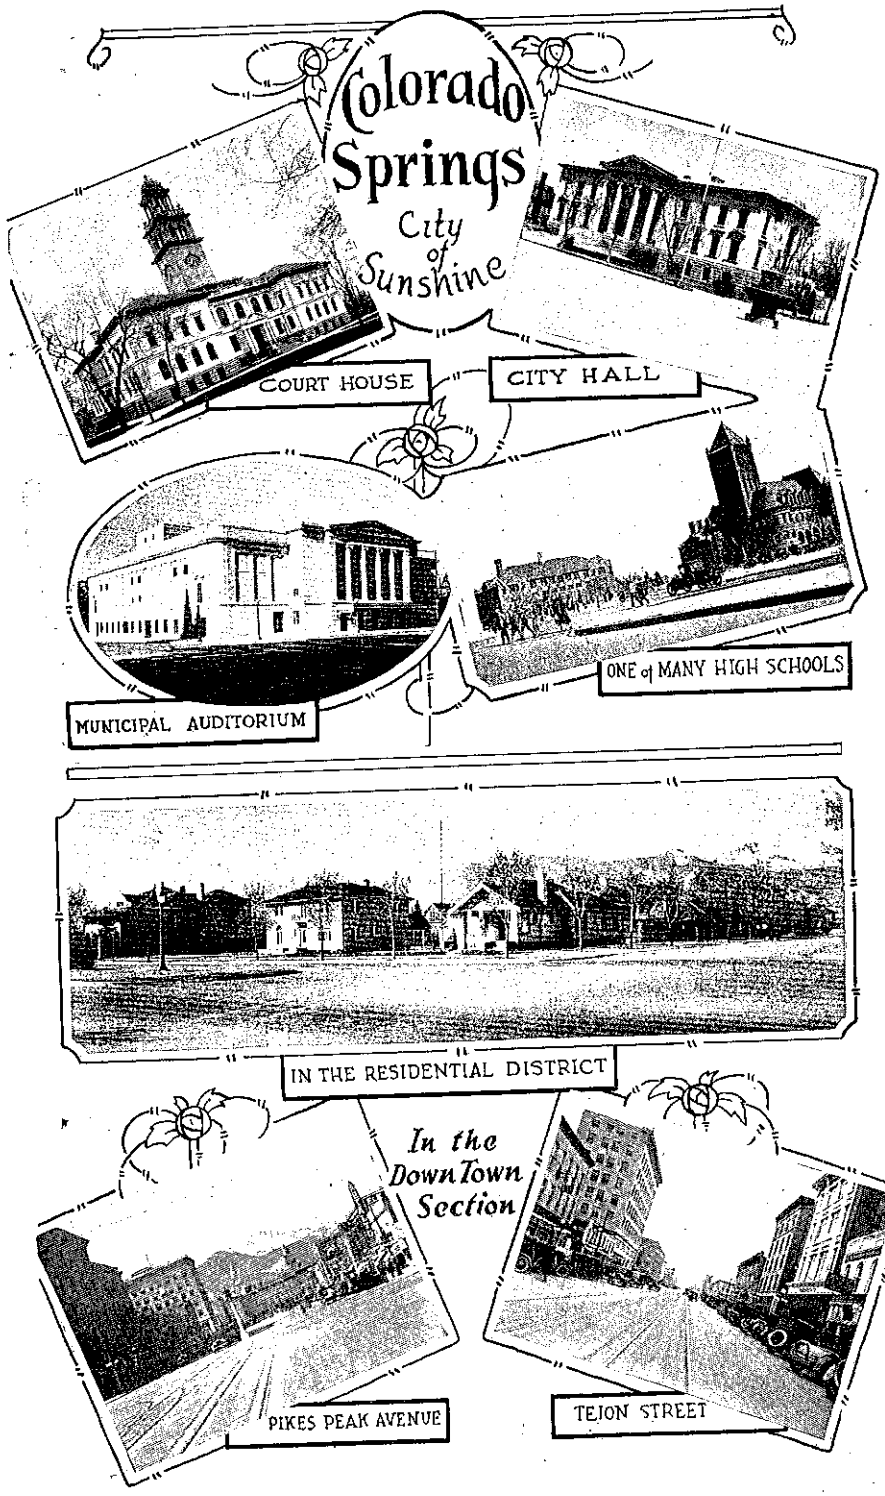
Today Pikes Peak is America's most famous mountain and has been climbed by hundreds of thousands of persons from all over the world. This great peak seems to present a challenge to the visitor. He cannot be satisfied until he, too, has stood on its snow-capped summit and allowed his gaze to sweep, uninterrupted, over 60,000 square miles of rugged mountains and rolling plains. No visit to the west can be complete without climbing Pikes Peak—8,000 feet above the plateau and 14,110 feet above the sea.

Its summit is reached by automobile over a free highway,

In the Pikes Peak Region

The All-Year Playground of America





the "world's highest motor road," by Cog railway and by burro trail. No less inspiring is the well known Garden of the Gods, a conglomeration of upheaved rock formations that lure the seeker after natural beauty and intrigue the geological student. The Garden of the Gods constitutes a part of the city's gigantic park system and is traversed by winding automobile roads that afford unobstructed views of every point of attraction. In addition to the Garden of the Gods, the city owns as a part of its park system, North Cheyenne Canon and the High Drive; Palmer Park at Austin's Bluffs and several city parks. Its park system of over 2,500 acres, comprising as it does, mountain trails, canons and bluffs as well as city parks is one of the unique park systems of the country.

There is a greater variety of wonderful scenery easier of access in the Pikes Peak Region than is found in any other equal area in the United States. Vacationists, seeking refuge from the heat of the South, North, East and West, have learned that the comfort they desire is to be found in Colorado Springs and each summer from early June to September, automobiles stream into the city from all sides and railroad trains arrive loaded. Children particularly are benefited by a vacation in the Pikes Peak Region. The abundant, bright sunshine and cool dry air permit almost continuous healthful outdoor life and recreation. There are several children's playgrounds in different parts of the city where every sort of apparatus has been installed and where all play is under supervision of specially employed teachers.

Nor is Colorado Springs a summer resort alone. Its winters are mild and relatively free from snow; out door life can be enjoyed the year round. Thousands have found that even a short stay in the Pikes Peak Region refreshes and energizes them. The clear, dry atmosphere and temperate climate are health building and vital-

izing. Purity is in the atmosphere that one breathes and in the water that one drinks in Colorado Springs and also in Manitou.

Manitou is a picturesquely situated, well kept town, with shops, hotels, bungalows and other accommodations to suit the tastes of visitors. Surrounded on three sides by mountains, several of the best-known points of interest in the region are almost within a stone's throw of the town.

As far back as Indian lore extends the aged medicine men sent the disabled warriors of their tribes to drink the rejuvenating waters named after their deity, Manitou. The Indian has gone, but the spirit of Manitou still breathes thru the health-giving waters, and their effervescence is as sparkling and bright as of old.

The iron and mineral properties of the Manitou springs are said by medical men to rival the curative properties of the best known spas of Europe. The baths at the new, fully-equipped Manitou Bath House, with water from the famous radioactive springs, have benefited many.

Just as the Indians came here for rest and recuperation, so today thousands are here because they have found renewed health and happiness. Having learned to appreciate the beauties and ideal year-around climate, they prefer to stay and enjoy every day those things which the visitor enjoys temporarily.

It is because of its remarkable health-restorative qualities that Colorado Springs was selected as the home of the Modern Woodmen of America sanatorium, the Union Printers Home, the National Methodist Episcopal Sanatorium, Glockner sanatorium, Cragmor sanatorium, St. Francis hospital, Crestone Heights sanatorium, Beth-El hospital and other similar institutions.

The city is steadily increasing its reputation as a convention site. Delegates to conventions are assured that by coming to Colorado Springs they may combine recreation with business to an extent that will make their trip a pleasure instead of just a grind. The excellence of summer weather, admirability of golf course and tennis courts and the adaption of the numerous mountain paths and trails to horseback riding make outdoor recreation in the Pikes Peak Region a thing long to be remembered. Convention delegates appreciate this and each year sees more and more of them coming to the city. A Municipal Auditorium seating 3,200 adds to the facilities for conventions.

Colorado Springs is the county seat of El Paso County. It was incorporated in 1876 and the first charter adopted in 1909. In 1920 the charter was amended to provide for the manager form of government. The city owns and operates its water system, its light and power system, a city airport consisting of 627 acres of level land six miles east of the business section. This has been described by aviation experts as the greatest natural airport in the world and improvements in the way of lighting and hangars make it a first class municipal airport. In addition the Alexander Industries have their own airport north of the city.

The civic affairs of Colorado Springs are competently handled by a progressive and alert Chamber of Commerce. Leading business and professional men of the city form the personnel of its committees, which are thoroughly acquainted with the needs of the community. Betterment programs are constantly being evolved in efforts to keep this region in the forefront of the more progressive communities of the land. Continual striving for upbuilding has been the policy of the organization since its inception. Correspondence is invited.
