is the most effective and most economical method of reaching all the people all the time. ∴ Those who buy without looking at the list of those who sell do themselves great injustice. A Complete Street and Avenue Guide

1936

INCLUDING MANITOU SPRINGS

Copyright, 1936, by R. L. Polk & Co. of Colorado

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular alphabetical order.

 all the people all the time. ∴
 Those who buy without look-

 do themselves great injustice.

TRADE!

You like to patronize those concerns
 which are in business to stay

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?
